- advance the relocation of the Headquarters of the Department of Agriculture and Rural Development to a rural area by 2015.

The draft Programme for Government is a visible commitment by the Executive to work with you through the issues which we all face and to provide the groundwork for economic and social recovery. It aims to highlight the actions we will take to deliver our number one priority – a vibrant economy which can transform our society while dealing with the deprivation and poverty which has affected some of our communities for generations.

The Executive is faced with significant financial constraints due to a substantial reduction in the block grant. This is the backdrop against which we have to operate. The consequences on funding and investment will be severe. However, we are committed to mitigating the worst impacts of these imposed cuts and to ensuring that the most vulnerable and disadvantaged in our society are protected.

We are also committed to addressing regional imbalance as we move ahead.

Equality is an important issue for the Executive and society alike. Inequalities do exist and we will work hard to eliminate these. Our policies and programmes will be designed in ways that ensure we can address inequality and unfairness and create conditions that support inclusion and equality of opportunity.

As a practical expression of this commitment, we have undertaken a strategic Equality Impact Assessment (EQIA) on this Programme for Government. The EQIA has also been issued for public consultation. Upon completion of the consultation, the EQIA will be finalised and used to inform the delivery, and where necessary, any review of this Programme for Government.

Over the past three years, the previous Executive made significant progress towards the achievement of its Key Goals and Commitments and Public Service Agreements set out in the previous Programme for Government. That work forms the basis for the next four years. We intend to repay the trust you have placed in us as elected representatives by doing all we can to tackle the difficult issues and deliver results for all our people.

This new Programme for Government offers a fresh opportunity to look at the Executive's policies and programmes. We want a Programme for Government which contains a clear set of commitments with an emphasis on delivering results that everyone can see in their daily lives.

OUR  
COMMITMENTS

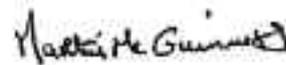

This is a challenging time worldwide. The financial constraints, economic recession, and other issues which affect people's day to day lives and which have a particular impact on some of our most vulnerable people and communities are a challenge for us all. However, we need to appreciate and make the most of our assets: peace; political stability; a young, skilled and increasingly diverse population; increased tourism potential; a growing creative industry and a strong entrepreneurial tradition. Given the opportunity, we can all make a tremendous contribution to creating a better future.

In tackling this challenging agenda, we are conscious of the importance of collaboration; and within the Programme, as well as working more effectively across Government Departments, we are signalling our intention to work in partnership with the private and the voluntary and community sectors in ways that will deliver tangible outcomes. While the Executive has a central role in transforming our society, we recognise that the public sector cannot achieve this transformation singlehandedly. Our aim must be to both secure reforms, where they are needed, and also to ensure that we recognise the importance of those who are already working hard to change the communities in which they live and work.

Our aim is to build a **shared and better future for all**. The vast majority of people here want us to succeed in delivering on our commitments and improving the opportunities available to this generation and the next. We do not intend to let them down.

## WHERE WE ARE

In reading the Programme for Government, it is important to understand what has already been achieved and what needs to be done.

During the term of the previous Executive, a range of important initiatives were delivered which will benefit people now and for many years into the future. These included: the devolution of policing and justice powers; significant foreign and local investment in jobs; the delivery of major infrastructure projects including roads, water, hospitals, housing, schools and public transport; the significant regeneration of cities and towns; the development of urban and rural communities and the roll-out of broadband networks.

### Some specific examples include:

- We delivered gross capital investment of £1.4 billion in 2007-08, £1.7 billion in 2008-09 and £1.7 billion in 2009-10 through our Investment Strategy (ISNI). This compares to just £1 billion in 2003-04;
- InvestNI secured almost £2.6 billion in investment commitments and £487 million in annual salaries; promoted 15,565 new jobs; safeguarded 5,329 existing jobs; and supported 8,267 new local business starts between 2007/08 and 2009/10;
- Over £140 million spent on the continued regeneration of our most disadvantaged areas through the Neighbourhood Renewal Programme over the last 7 years to improve economic, social and physical conditions;
- £77.5 million spent in 2008-11 on urban regeneration projects which include the transformation of the City Centre of Derry/Londonderry, the new Peace Bridge over the Foyle, the Belfast Streets Ahead project (implemented to transform Belfast City Centre) and major public realm improvements;
- In 2010/11 50% of all planning applications were decided within 11 weeks, and 89% of all applications decided were approved;

WHERE  
WE ARE

- Improved journey times and safety on Key Transport Corridors due to completion of a number of major road schemes, including: the M1 / Westlink project; the M2 improvement scheme; improvements on the A1 Belfast-Dublin road; dualling of the A4 Dungannon to Ballygawley; new dual carriageway on the A2 from Broadbridge / Maydown to City of Derry Airport; and a dual carriageway link facilitating through traffic on the A26 / M2 Ballee Road East, Ballymena;
- 2010 saw the lowest number of road deaths since records began in 1931. Figures show that there were a total of 55 road deaths in 2010, 60 fewer than in 2009 and equating to an unprecedented fall of over 50%. The fall in serious injuries was around 14%;

- A range of new Health and Social Care developments, including: Altnagelvin £33 million South Wing; Down new £64 million hospital; Craigavon Area Hospital new £9.4 million trauma and orthopaedic facility; £17 million capital investment in 60 new ambulances and a range of Primary Care infrastructure projects; work continues to progress well on the construction of the £235 million new hospital at Enniskillen, which is due for completion in the early summer of 2012 and the £143 million new critical care block at the Royal Victoria Hospital, which is due for completion by the end of 2012;
- In the 3 years ended March 2011, the Employment Service helped 96,626 people find work, which exceeded by 38% their 3 year target (to assist 70,000 people into work);
- Introduced a new school improvement policy which has seen the percentage of school leavers achieving at least 5 GCSEs at A\*-C (or equivalent) including GCSE English and Maths increasing from 53% to 59%;
- Since May 2007 to April 2011, 53 major capital school projects have been completed representing an investment of £492 million in our schools estate;
- Investment of more than £1 billion in improvements to water infrastructure and completion of the £160 million Belfast Sewers Project resulting in improvements to water quality in the River Lagan and reducing the risk of flooding;
- The passage of the Justice Bill, the first justice legislation to be passed by the Assembly in over 40 years, and an important milestone in reshaping the justice system to better meet local needs and conditions;

WHERE  
WE ARE

- 10 year Victims Strategy published and agreed and £36 million was secured for work with victims and survivors for the period 2008-11;
- Through the Rural Development Programme DARD has invested over £250 million in protecting and enhancing the rural environment and contributing to the development of competitive and sustainable rural businesses and thriving communities;
- £17.7 million refurbishment of the Ulster Museum – over one million visitors since re-opening and success in a number of prestigious awards including the UK-wide Art Fund Prize in June 2010 and the Sandford award for Museum and Heritage Education;
- £97 million Titanic Signature Building will be completed by 2012 as will the Giants Causeway Visitor Centre;
- NIDirect established as the premier online platform for government information and services – nearly 6 million visits since launch.

## Our Approach

## 3

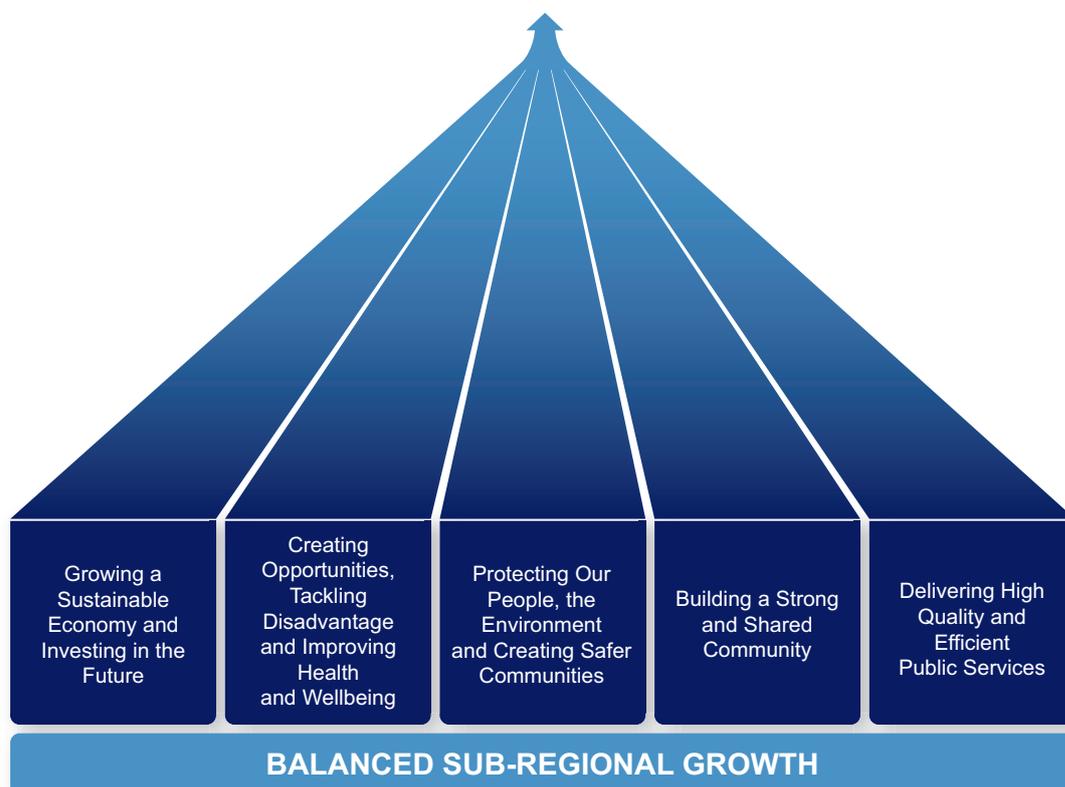

## OUR APPROACH

The Executive has taken the important step of making the economy the top priority in this Programme for Government.

The most immediate challenges lie in supporting economic recovery and tackling disadvantage. In particular, we need to rebuild the Northern Ireland labour market following the impact of the global economic downturn while also continuing to rebalance the economy to increase living standards. While doing this, we are committed to growing a sustainable economy and investing in the future; tackling disadvantage; improving health and wellbeing; protecting our people and the environment; building a strong and shared community and; delivering high quality services. Equality and sustainability are our underpinning principles.

## PEACE • PROSPERITY • FAIRNESS • WELL-BEING

It is by adherence to these principles that we will work towards our goal of a shared and better future for all; all of our policies and programmes across Government will be built upon the values of equality and fairness and the ethics of inclusion and good relations. Since coming into Government, much progress has been made, and we remain as committed as ever to achieving this goal. The Executive has an overarching responsibility - and the collective will - to proactively change the patterns of social disadvantage that

OUR  
APPROACH

have existed historically, and remain today, by using increased prosperity and economic growth as mechanisms to tackle ongoing poverty.

The challenge of delivering on these goals rests with all of us, and we must develop new and innovative measures in response. This may be through the evolution of policies or the creation and delivery of new programmes to support the fight against socio-economic disadvantage. The primary objective of these efforts remains the effective targeting of resources towards those in greatest objective need.

The aim of the rebuilding and rebalancing of the Northern Ireland economy, in the aftermath of a sustained global economic downturn, will remain the principal goal of the Executive's collective efforts.

Our vision for the Northern Ireland economy is based on a sustainable and growing private sector, with a highly skilled and flexible workforce operating in productive and innovative firms that are competitive in global markets.

We must also recognise the challenges we face in the coming years, particularly when set against the reduction in public expenditure available to the Executive. The constriction of public spending will mean tough choices will have to be made.

The targeting of our activities and resources in priority areas will ensure that we stimulate action and interventions to increase productivity and competitiveness, and enable local companies to grasp opportunities. These will, in turn, generate employment and wealth and also ensure that everyone, including the most vulnerable within our society, will have the opportunity to contribute to, and benefit from, increased prosperity. We also recognise that actions to address poverty and tackle disadvantage are prerequisites for social progress and are intrinsic to the creation of a peaceful, fair and prosperous society with respect for the rule of law in Northern Ireland.

We are determined that the wealth and prosperity we are seeking will be used to help reduce poverty, promote equality and tackle existing patterns of disadvantage and division. We are also committed to building an economy that provides opportunities for the present, without compromising the ability of future generations to meet their own needs. We will be guided by the following principles when rebalancing and rebuilding our economy:

- **Balanced sub-regional growth:** we will ensure that all sub-regions are able to grow and prosper whilst recognising the importance of Belfast and Derry/Londonderry as key drivers of regional economic growth;
- **Equality:** we will ensure that no section of the community is left behind; equality of opportunity, fairness, inclusion and the promotion of good relations will be watchwords for all our policies and programmes across Government and;
- **Sustainability:** sustainability policy is driven by intergenerational equity – securing a positive quality of life for present and future generations. To realise this, and to make sustainable development a hallmark of 21st Century government here, we will work together, across and beyond organisational and social boundaries to promote and encourage its recognition and acceptance.

Our North/South and East/West links are important in helping us to deliver our priorities and we are committed to developing these through day-to-day contact between administrations as well as formal structures such as the North South Ministerial Council, the British Irish Council and the Joint Ministerial Council. Through these activities and mechanisms, we will continue to work closely with the British and Irish Governments and other administrations in ways that are both practical and mutually advantageous.

This will bring benefits in terms of transport, infrastructure, trade and enterprise and support progress across important sectors such as agriculture, tourism and health. It will also help us to tackle major issues such as social exclusion, barriers to mobility and fighting crime.

## Our Priorities

4

## 4

## OUR PRIORITIES

The Executive faces many challenges in delivering the kind of future that we all want and deserve.

To address these, and to make the most of the opportunities available to us now and in the future, we intend to focus our time and energies in delivering five key strategic, interconnected and inter-dependent priorities.

We regard our priorities as collectively contributing to, and consolidating, both effort and effect. We recognise that we cannot simply grow the economy at the expense of disregarding our endeavours to transform society and enhance our environment. A strong modern economy is built upon a healthy, well-educated population backed by high quality public services and a commitment to use prosperity as a means of tackling disadvantage. This, in turn, will lead to a tolerant, stable and inclusive society that has the skills necessary to attract investment and promote growth. This is why the

Executive considers it imperative that economic growth and wealth creation is achieved in a way that is both fair and sustainable if we are to meet the needs of today as well as those of the future.

**Our priorities are:**

- **Growing a Sustainable Economy and Investing in the Future**
- **Creating Opportunities, Tackling Disadvantage and Improving Health and Well-Being**
- **Protecting Our People, the Environment and Creating Safer Communities**
- **Building a Strong and Shared Community**
- **Delivering High Quality and Efficient Public Services**

It is essential to recognise the inter-relationships that exist between our priorities. It is not intended that these are looked at hierarchically, but rather that they are seen as being a suite of complementary areas for action; each of which has the potential to positively impact on others.

All departments of Government must work together to produce policies, plans and strategies – the *building blocks* – that are consistent with the priorities we have identified. In addition, Government as a whole, must act collaboratively with partners in the private, community and voluntary sectors to assure, and positively maximise, the impacts of our work.

# Priority 1: Growing a Sustainable Economy and Investing in the Future

The primary purpose of this Priority is to achieve long term economic growth by improving competitiveness and building a larger and more export-driven private sector. To do this we must *rebuild* the labour market in the wake of the global economic downturn and *rebalance* the economy to improve the wealth and living standards of everyone.

## Priority 1:

### This means:

- *more jobs*
- *more people in work*
- *a better educated and more highly skilled workforce*
- *a healthier population, and a competent and confident well-educated and more highly skilled workforce;*
- *enhanced economic infrastructure*
- *encouraging innovation and R&D*
- *developing the 'Green' (sustainable) economy*
- *growing the private sector*

### Our Building Blocks include:
